CC-Link **IE TSN**

CC-Link

Nanjing Solidot Electronic Technology Co., Ltd.

CB4-1616A

Integrated I/O, CC-Link IE Field Basic, SLMP, 16ch DI, 16ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

특징

- Integrated I/O, CC-Link IE Field Basic, SLMP, 16ch DI, 16ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

사양

항목	내용
국종별	리모트국
점유국수	1
프로토콜 버전	1.0
외형치수	102×72×25 [mm]
중량	150g

판매처

제조사	Nanjing Solidot Electronic Technology	https://www.solidotech.com/en

Nanjing Solidot Electronic Technology Co., Ltd.

CB4-1612J

Integrated I/O, CC-Link IE Field Basic, SLMP, 16ch DI, NPN&PNP type, 12ch DO, relay type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

특징

- Integrated I/O, CC-Link IE Field Basic, SLMP, 16ch DI, NPN&PNP type, 12ch DO, relay type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

사양

항목	내용
국종별	리모트국
점유국수	1
프로토콜 버전	1.0
외형치수	102×72×25 [mm]
중량	150g

Nanjing Solidot Electronic Technology Co., Ltd.

CB4-3200A

Integrated I/O, CC-Link IE Field Basic, SLMP, 32ch DI, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

특징

- Integrated I/O, CC-Link IE Field Basic, SLMP, 32ch DI, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

CB4-0824A

Integrated I/O, CC-Link IE Field Basic, SLMP, 8ch DI, 24ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

특징

- Integrated I/O, CC-Link IE Field Basic, SLMP, 8ch DI, 24ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, suitable for main stations of Mitsubishi, Siemens, Omron and other major manufacturer, IP20.

사양

항목	내용

XB6-CB2002ST

CC-Link IE Field Basic coupler kit: built-in Ethernet switch, including CC-Link IE Field Basic coupler (XB6-CB0002), 2A power supply (XB6-P2000H), terminal cover (XB6-CVR00); 2 Ethernet bus interfaces, 1 backplane X-bus interface, size 106*61*47mm, providing 2000mA drive circuit for coupler and subsequent IO module with 2000mA drive circuit.

특징

- Small footprint, fast speed, quick wiring, pluggable terminals, simple configuration, adaptable to Mitsubishi FX5U, L, iQ-R and other PLCs, high-speed X-bus bus, full load of 32 slave stations, maximum scan cycle 1ms, protection class IP20.

사양

항목	내용
국종별	리모트국
점유국수	1~4
프로토콜 버전	1.0
외형치수	106×61×47 [mm]
중량	300g

CC4-1616A

Integrated I/O, CC-Link ,16ch DI, 16ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, Suitable for Mitsubishi Q, FX and other series of main stations, IP20.

특징

- Integrated I/O, CC-Link ,16ch DI, 16ch DO, NPN type, 102*72*25mm, space saving, smart, fast wiring, RTB(Removable Terminal Block), easy configuration, Suitable for Mitsubishi Q, FX and other series of main stations, IP20.

사양

항목	내용
국종별	리모트 디바이스국
점유국수	1
프로토콜 버전	1.10
외형치수	102×72×25 [mm]
중량	150g
